Preconference Workshops
Workshop 1: How to construct/restate Paediatric Investigation Plans (PIPs)
Workshop 2: Case study - Benefit-risk approach on dosage form design for paediatrics

Soap box sessions – Poster session – Exhibition
Early bird deadline 15 July 2016

Join us again for another informative and interactive conference on formulating better medicines for children.
The 8th EuPFI annual conference will take place in Lisbon, Portugal during 10th to 12th September 2016, offering a unique opportunity to share knowledge, network and discuss the challenges and developments of age-appropriate dosage forms. Our aim is to bring together scientists, pharmaceutical technology, and regulatory stakeholders in order to further develop the profile of their technology and share potential applications. The conference provides a platform to exchange/share many common goals/issues around both scientific and regulatory aspects associated with paediatric formulation development. We are looking forward to welcoming you in Lisbon, city of seven hills.

The programme for the EuPFI meeting is typically designed around the workshops that complicate the EuPFI activity, Pharmaceutical Excipient, Taste testing and taste assessment methodology, and the relationships between regulatory authorities and pharmaceutical excipient manufacturers, with EMA as a continuous observer. The main objective of the EuPFI is to improve the quality of data submitted on pharmaceutical development, Interactions between FDA, IPEC and IQ on standardisation and excipient manufacturers and new EU initiatives.

We hope that you will be able to join us for what promises to be a most useful conference and we are looking forward to welcoming you in Lisbon, city of seven hills.

Catherine Tuleu, UCL School of Pharmacy, London, United Kingdom

Jörg Breitkreutz, Heinrich-Heine University, Düsseldorf, Germany

The conference provides a platform to exchange/share many common goals/issues around both scientific and regulatory aspects associated with paediatric formulation development. We are looking forward to welcoming you in Lisbon, city of seven hills.

Catherine Tuleu, UCL School of Pharmacy, London, United Kingdom

Jörg Breitkreutz, Heinrich-Heine University, Düsseldorf, Germany
Dear Colleagues,

We are pleased to announce that the 8th EuPFI annual conference will take place on the 21st - 22nd September 2016, in Maastricht, The Netherlands. The conference will bring together scientists from academia, hospitals and the pharmaceutical industry (innovators, generics, CROs, specialties) to discuss and debate the issues/challenges of development of age appropriate dosage forms.

We will be looking for those who can provide a useful contribution to the meeting. For more information, visit our website, or send your abstract to: abstracts@europf.com 

The programme for the EuPFI meeting is typically designed around the workshops that comprise the EuPFI activity: Pharmaceutical Exciipients, Taste masking and taste assessment methods, Administration device, Age appropriate formulations and Bio-pharmaceutics. The innovation showcase provides an opportunity for businesses working in paediatric formulations to raise the profile of their technology and showcase potential applications. Shorts talks (soapbox sessions) from submitted abstracts will be presented at the meeting at which all who are present for networking and the selection criteria will be publicised. We encourage you to explore the EuPFI website which contains all the information you need to submit your abstracts.

The conference provides a platform to exchange viewpoints across many common goals/issues between both scientific and regulatory aspects related to pediatric formulation development.

We hope that you will be able to join us for what promises to be a most useful conference and we are looking forward to welcoming you in Maastricht, city of seven hills.

Catherine Tuleu, UCL School of Pharmacy, London, United Kingdom
The European Paediatric Formulation Initiative (EuPFI), a consortium of members working in a pre-competitive way on paediatric drug formation, is pleased to announce the 8th annual EuPFI conference which will take place through its website. Currently, there are five EuPFI workshops, covering pharmaceutics, excipients and paediatric formulations, novel excipients and much more.

We hope that you will be able to join us for what promises to be a most useful conference and we are looking forward to welcoming you in Lisbon, city of seven hills. 

Catherine Tuleu, Chair of EuPFI, UCL School of Pharmacy, London, United Kingdom

Jörg Breidenbach, Heinrich Heine University, Düsseldorf, Germany
1. Developing paediatric drug formulations
2. Excipients
3. Taste masking and taste testing
4. Administration devices
5. Modification of dosage forms required for children
6. Age appropriateness of formulation/compliance-adherence issues
7. Formulating paediatric medicines for developing countries
8. Lessons learned from PIP submissions
9. Biopharmaceutics

Preconference Workshops

Workshop 1: How to construct/extricate Paediatric Investigation Plans (PIPs)
Workshop 2: Case study – Benefit risk approach on dosage form design for paediatrics

Soap box sessions – Poster session – Exhibition

Early bird deadline 15 July 2016

Join us again for another informative and interactive conference on formulating better medicines for children.

Please contact Antonia Herbert
Phone: +49 6131 9769-00
Email: ah@apv-mainz.de

As an exhibitor you will be also invited to attend the sessions and network at the networking dinner in the evening. At the conference center the poster presentations will again be integrated in the exhibition, ensuring that participants are around the exhibition stands as much as possible. Price for a tabletop space with table, chairs and power supply is 950 EUR plus one mandatory full conference registration (register before July 15, to take advantage of the early bird fee).

For general information, please go to www.apv-mainz.de/en/seminare/sponsoring-exhibition/

Exhibition and Sponsoring

We are glad to tailor a sponsor package (starting from 1000 EUR) according to your wishes.

Topics for oral and poster presentations
1. Developing paediatric drug formulations
2. Excipients
3. Taste masking and taste testing
4. Administration devices
5. Modification of dosage forms required for children
6. Age appropriateness of formulation/compliance-adherence issues
7. Formulating paediatric medicines for developing countries
8. Lessons learned from PIP submissions
9. Biopharmaceutics
EU R plus one mandatory full conference registration (register before July 15, to take advantage of the early bird fee).

Registration times for workshop participants:
20 September 2016 15:00
21 September 2016 08:30
Registration times for conference participants:
21 September 2016 08:30
Set up and poster mounting times:
21 September 2016 08:30
